- **Search Fields** -- Searching different fields will give you different results (TX All Text, TI Title, etc.)

- **Limiters** -- Limiting your search focuses your results; fewer results, but more relevant
EN 121: Database Search Tricks

- **Quoted Search** -- Use quotes [“ ”] when you need a particular phrase searched together; fewer results

- **Wildcard** -- Use the star [*] character to search all possible variants of a base word; more results
  - Example: (environmental) vs. (environ* —> environS, environMENT, environMENTAL, etc.)
