

American Rescue Plan Act 2021 (ARP) Quarterly Report for Student Portion

For the Period Ending September 30, 2021

The American Rescue Plan Act of 2021 (ARP) (Pub. L. 117-2) (March 11, 2021), authorizes the Secretary of Education to provide emergency financial aid grants to institutions of higher education. Uses of this funding are governed by section 2003 of the ARP and section 314 of the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA) (Pub. L. 116-260).

In order to comply with the ARP Act, Illinois College must use \$1,637,958 in "Student Aid Portion" funds to provide emergency financial aid grants to students which may be used for any component of the student's cost of attendance or for emergency costs that arise due to coronavirus, such as tuition, food, housing, health care (including mental health care) or child care.

The ARP and CRRSAA Acts require that institutions prioritize students with exceptional need, such as students who receive Pell Grants, in awarding emergency financial aid grants to students. However, students do not need to be Pell recipients in order to receive an emergency financial aid grant.

Illinois College will administer these funds in accordance with its "Funding Certification and Agreement for the Emergency Financial Aid Grants to Students under the CARES Act," dated April 10, 2020, as amended by the U.S. Department of Education on January 17, 2021 and again on May 19, 2021.

Illinois College also received "Institutional Portion" CRRSAA funding. Allowable uses under the ARP and CRRSAA Acts for Institutional Portion awards include:

- Defraying expenses associated with coronavirus (including lost revenue, reimbursement for expenses already incurred, technology costs associated with a transition to distance education, faculty and staff trainings, and payroll);
- Making additional emergency financial grants to students, which may be used for any component of the student's cost of attendance or for

- emergency costs that arise due to coronavirus, such as tuition, food, housing, health care (including mental health care), or child care; and
- Making additional financial aid grants to students.

Under section 2003(5) of the ARP, Illinois College must use a portion of its Institutional Portion funds to (a) implement evidence-based practices to monitor and suppress coronavirus in accordance with public health guidelines and (b) conduct direct outreach to financial aid applicants about the opportunity to receive a financial aid adjustment due to the recent unemployment of a family member or independent student, or other circumstances, described in section 479A of the HEA (20 USC § 1087tt).

No Institutional Portion funding may be used to fund construction; acquisition of real property; contractors for the provision of pre-enrollment recruitment activities; marketing or recruitment; endowments; capital outlays associated with facilities related to athletics, sectarian instruction, or religious worship; senior administrator or executive salaries, benefits, bonuses, contracts, incentives; stock buybacks, shareholder dividends, capital distributions, and stock options; or any other cash or other benefit for a senior administrator or executive.

Recipient institutions may, but are not required to, use Institutional Portion funds to provide additional emergency financial aid grants to students for expenses related to the disruption of campus operations due to coronavirus. If the recipient institution chooses to use funds designated for Recipient's Institutional Costs to provide such emergency financial aid grants to students, then the funds are subject to the requirements in the "Funding Certification and Agreement for the Emergency Financial Aid Grants to Students under the CARES Act," dated April 10, 2020, as amended by the U.S. Department of Education on January 17, 2021 and again on May 19, 2021.

As of this reporting period, no ARP funding has been distributed to students.
